ABOUT IPD SERVICES

IPD Services (a part of the IPD Group) provides customers with a wide range of services including; NATA accredited Calibration, Repairs, Upgrades, Maintenance, Installation, Commissioning and Manufacturing. Our product offering comprises of a huge variety of Test & Measurement products such as battery testers, clamp meters, insulation resistance testers, power analysers & cable tracers. Our Safety product range consists of HV Gloves, Mats, Sleeves, Poles and Arc Flash PPE. From a simple multimeter to a 66kV Switchboard with a complex protection scheme, IPD Services will support you with all of your Calibration, Installation, Cabling, Refurbishment & Commissioning needs. Born out of the IPD product business, IPD Services now has a national footprint and we pride ourselves on providing a customer experience like no other.

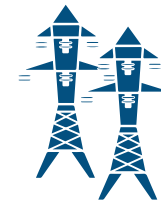

INDUSTRIES

WE SERVE

Our journey started in 2014, IPD Group purchased Hivotech a niche High Voltage manufacturing and testing business based out of Burnie, Tasmania. With more than 25 years in the Electrical and High voltage industry, Hivotech is a world leader in the manufacturing, testing and maintenance of High Voltage testing equipment. Today our Tasmanian depot is the R&D hub for IPD Services and continues to work with customers throughout Australia and New Zealand when it comes to Innovation and Safety.

NATIONAL SUPPORT

In 2017, our services portfolio expanded further as we purchased Central Test, a leading test and calibration company based in Bendigo Victoria. The Bendigo facility houses our NATA certified test laboratory which is accredited to perform Voltage testing up to 120,000 Volts and Current testing up to 1040 Amps. With over 50 years of experience and operating since 2004, our customers primarily include Victorian Power Utilities and Industrial, Mining and Vegetation Management companies.

Melbourne

OUR SERVICE CAPABILITIES

HV ELECTRICAL TESTING

Gloves, Sleeves, Mats and Blankets
Telescopic/Live line sticks
Modieworks
Tools
Jumper leads & Earthing sets up to 50,000V AC

NATA ACCREDITED CALIBRATION

Multimeters
Neutral & Supply testers
Insulation testers/meggers
Data loggers & Appliance testers
Clamp meters
Earth testers
Dobles

SAFETY PRODUCTS

Gloves and Sleeves
Earth leads
DC wire testers
Operating sticks and attachments
Multimeters
Clamp meters
Insulation testers/meggers
Dobles
Neutral & supply testers
Earth testers
Data loggers & Appliance testers

EQUIPMENT SERVICE

Auto transfer switches (ATS)
Air circuit breakers (ACB)
Low & Medium voltage switchgear
Power Monitoring systems
Power Transformers
Busducts

INSTALLATION AND COMMISSIONING

Auto transfer switches (ATS)
Air circuit breakers (ACB)
Low & Medium voltage switchgear
Power Monitoring systems
Power Transformers
Busducts

MANUFACTURING

Operating sticks
Fibreglass switching handles
Discharge sticks

REPAIRS

Instrument repairs & adjustment
PETE repairs
HV equipment repairs
Fibreglass repairs & refurbishment

NATA ACCREDITED LABORATORY

FOR CALIBRATION AND TESTING

WORLD RECOGNISED
ACCREDITATION

Certified laboratory for

-  Performance and Approvals Testing
-  Voltage testing up to 120kV AC
-  Calibration
-  Resistance, Capacitance and Frequency (10kHz)
-  Current testing up to 1040Amps

IMTE

Testing

(Inspection, Measuring and Test Equipment)

- Clamp & MultiMeters
- Volt & Ammeters
- Insulation Testers (Meggers)
- Earth Testers
- Load & Power Quality Loggers

HVE

Testing

(High Voltage Equipment)

- EWP's
- HV Indicators (Modieworks)
- Live line Gloves, Mats, Sticks and Sleeves

PETE

Testing

(Portable Electrical Test Equipment)

- RCD testing
- Lead test & tag

MOBILE TESTING

The fully equipped mobile service vehicle will afford customers the luxury of having all their High Voltage Equipment (HVE) and meter calibration tested on-site. This negates the inconvenience of customers having to drop off and pick up equipment at our service depots.

All testing provided onboard are in compliance to standards.

Services Performed

- Testing, Maintenance and Equipment Calibration services
- HV truck testing
- Repairs & Inspections
